SUMMARY

Service and experience (UI/UX) designer and researcher with 6+ years turning complex, multi-stakeholder systems into dev-ready products across industries. Works end to end, from research and service design to UI on design systems, and has led small teams through delivery. Uses AI daily to ramp up, synthesise and prototype, and knows where AI needs human judgement.

EXPERIENCE

Senior Experience Designer, Accenture Song

Bangalore, India (Hybrid) | Sep 2024 – Aug 2026

- **Clearstream (Financial services), Mar 2026 – Jul 2026:** UX researcher and UI/UX designer for a post-settlement B2B portal. Conducted a heuristic evaluation, interviews and synthesis that informed UI/UX improvements; won dev and business buy-in for a major user-management redesign on a legacy codebase, set to ship from Jan 2027.
- **BMW (Automotive), Sep 2025 – Jan 2026:** Designed UI/UX and user flows for Retail Delivery Reporting (RDR) and other modules; the RDR modules are live for 650+ BMW North America dealers. Built two client POCs, including an AI-assisted workflow prototyped in Figma Make.
- **Virgin Money UK (Banking), May 2025 – Aug 2025:** Led the identification and verification (ID&V) service design stream and a small team. Ran research with 6–7 SMEs, complaints and competitor analysis, and 4 ideation and concept development workshops; delivered cross-channel blueprints and a prioritised roadmap with workstream owners.
- **BPCL (Energy), Dec 2024 – Apr 2025:** Led service design and UI/UX for digitising domestic piped-gas installation, supply and maintenance (B2C and B2B) in Tier 2 and 3 Indian cities, managing 2–4 designers. Turned business requirements into blueprints, flows and dev-ready web and mobile screens for 6 personas across 8 modules (1,500+ screens), extended the design system, and set up Jira tracking that cut rework.
- **BMW M Motorsport (Automotive), Oct 2024:** Co-facilitated 4–5 workshops and stakeholder interviews for a North America B2B parts-portal migration; mapped journeys for 4 personas into epics, user stories and acceptance criteria.
- **Practice:** Co-mentored 6–7 designers to build an internal service design × AI agent.

Independent Consultant

Mumbai, India (Hybrid) | Jan 2024 – Aug 2024

- **Glory Salon:** Researched with the owner, staff and clients to uncover bottlenecks and insights that shaped a growth strategy, then led the rebrand from consultation to execution.
- **Ecole, Bangalore:** Visiting faculty; taught a digital culture module to Year 2 design students.

Senior Design Analyst, UX Design Analyst, Accenture

Mumbai and Bangalore, India (Onsite and Remote) | Jul 2019 – Jul 2022

- **Roche Diagnostics (Healthcare):** Sole UI/UX designer on a Salesforce Lightning sales tool for ordering and tracking diagnostic equipment, used in 100+ countries. Coordinated with product, dev and QA teams and held key design decisions through implementation.

- **ADNOC (Energy, Enterprise):** Ran research and benchmarking, defined the information architecture, and handed lo-fi wireframes to the UX team for a redesigned intranet landing page for ADNOC's IT employees.
- **myConcerto Builder (Internal enterprise tool):** Research-led UX and UI for a "Canva for sales teams" that let sellers build confidential pitch microsites without designer back-and-forth.
- **Mondezvous (Studio initiative):** Started a weekly studio platform that ran for 3 years across 300+ designers, building a culture of shared learning and surfacing skills that helped leads spot strengths across the team.

EDUCATION

MDes Service Design, The Glasgow School of Art, UK
2022 – 2023 | Innovation School Postgraduate Scholarship

- Thesis, The Food We Waste: a community-fridge service that redistributes household food before it is wasted, aligned with Scotland's 2025 food-waste goals. A Scottish government lead confirmed they had arrived at the same solution.

BA (Hons) Communication Design, Pearl Academy, Mumbai
2015 – 2019 | Interactive and Digital, Interaction Design major

- Academic Excellence Award, 2016 and 2019

SKILLS

- **Service design:** Service blueprints, journey mapping, opportunity assessment, workshop facilitation, synthesis and storytelling
- **Research:** Stakeholder and SME interviews, heuristic evaluation, benchmarking, competitor and complaints analysis
- **Design:** Requirement discovery and translation, user flows, dev-ready UI, design systems, dev specs and handover, prototyping, user stories and acceptance criteria
- **AI in practice:** ChatGPT, Claude, Gemini, Copilot, Figma Make, for vibe coding, domain ramp-up, large-dataset analysis, synthesis, visualisation and prototyping
- **Tools:** Figma, FigJam, Miro, Jira, Microsoft Office

VOLUNTEERING

Bookwallah (NGO), with Service Design Society India, 2021: Led research, journey mapping and final sign-off; the NGO implemented the proposal and saw better volunteer retention.
